

LaTeX Bibliography Example: The natbib Package

writeLaTeX

August 6, 2014

Here are some natbib examples. You can cite examples using the citation key [Trang and Mebkhout, 1983] in your .bib file. (On writeLaTeX, you can access the .bib file via the Project menu.) There are commands for in-text citations, like Goresky and MacPherson [1981]. And you can pass an option to specify additional details, such as a page or chapter number, as an option [Fulton, 1983, p. 130].
